

## The Benefits of RouteOne/Advent Integration

A Dealer Management System (DMS) integration solution enables a two-way exchange of credit application information with your Advent System. Advent Resources Inc. integration allows fields on the RouteOne credit application to be populated with information obtained electronically from your Advent System, thereby eliminating duplicate data entry.

Saved or sent applications in the RouteOne System can be easily exported to your Advent System. In addition, the RouteOne/Advent integration solution also provides enhanced reporting on all F&I information, which is extracted nightly from your Advent System. Advent deal information will automatically populate the F&I Log, F&I Performance, and Time Sales Analysis reports in the RouteOne Dealer Reporting Suite.

### In this Advent Integration Guide You Will:

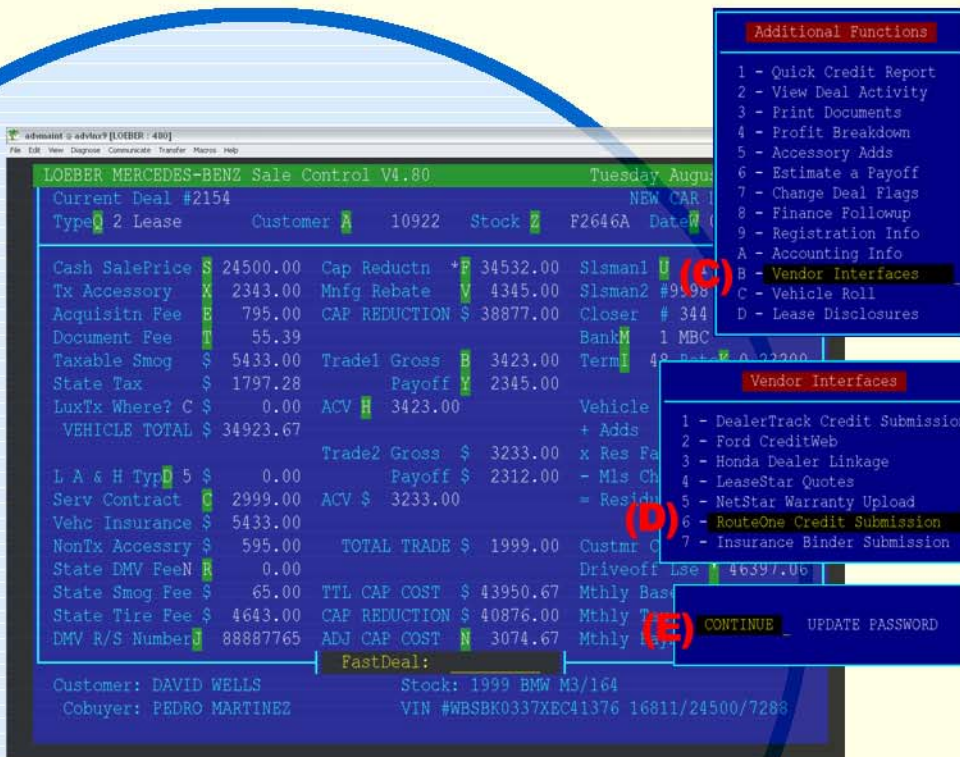

1. Identify how to import deals from Advent to the RouteOne System.
2. Identify how to export deals from the RouteOne System to Advent.
3. View all your dealership's F&I activity in the RouteOne Reporting Suite.
