

CARFAX Vehicle History Reports™ can be accessed from multiple operating points within RouteOne. All RouteOne users may access CARFAX from the Credit Application and the Deal Summary. For subscribers of the RouteOne Vehicle Values tool, CARFAX Vehicle History reports can be accessed on each Vehicle Valuation executed, and also from the Valuation Manager.

Administration

1. A CARFAX subscription is required to access the feature within RouteOne. If your dealership is not currently a CARFAX subscriber, the Dealership System Administrator (DSA) may subscribe the dealership from the 'Admin' tab, 'Premium Services' link. The DSA may also navigate to a user's profile pages to enter CARFAX credentials.

CARFAX - Vehicle History Reports:

Over 26,000 dealers across the nation are currently CARFAX Dealer Subscribers. These dealers boost their bottom lines by both avoiding problem car losses as well as driving new sales. To become a CARFAX Dealer Subscriber, and get linked to over 45 million used car buyers looking for the CARFAX Guarantee, click on the "Sign up for CARFAX" link below.

2. The credentials required to access CARFAX via RouteOne are the same as those that are used to access www.carfaxonline.com. A DSA must input a user ID and password for each user that intends to use CARFAX.
3. If a DSA wishes to disable CARFAX access for a specific user, they may simply remove the CARFAX credentials for that user.

CARFAX IDs:

Please enter the User Name and Password provided by CARFAX in the fields below. Your CARFAX User Name is the same one used to login to www.carfaxonline.com and is seven characters in length.

CARFAX User Name	<input type="text"/>
CARFAX Password	<input type="password"/>

Please Note: A CARFAX User Name and Password has not been supplied for this user. A CARFAX User Name is required to request a report from CARFAX. Please direct all inquiries to the CARFAX Helpdesk.(Phone:(1-800-274-2277))

[CARFAX Terms and Conditions](#)

By clicking Submit on the CARFAX Report Options screen, I agree to use the RouteOne system to purchase the CARFAX Report type chosen and understand that standard CARFAX Vehicle History Service Terms and Conditions and other original contract terms apply. All CARFAX Reports run will be billed to me in my monthly CARFAX invoice at previously agreed to pricing. No additional charges will apply.

Note: Once entered, CARFAX user ID's and passwords are stored permanently. If a user name and password are entered incorrectly, the DSA should be contacted. Dealers may contact CARFAX directly at 1-800-274-2277 for assistance with user names and passwords.

Vehicle Values Access

The RouteOne Vehicle Valuation tool eliminates the hassle of leafing through paper guides or going to stand-alone valuation sites. Dealers may automatically calculate used vehicle loan, retail, and trade-in values on a single screen from within the Vehicle Values tool. Additionally, you may provide your finance sources detailed valuation information, reducing the time it takes to receive a funding decision.

With the inclusion of CARFAX, the Vehicle Valuation tool is now positioned to offer more efficiency and accuracy in valuing vehicles. Accessing CARFAX within Vehicle Values requires a subscription to Vehicle Values. If your dealership is not currently subscribed, you may request that your DSA visit the 'Premium Services' page within the 'Admin' tab.

1. The CARFAX link is displayed on the right hand side of the 'New Valuation' screen. If, after entering a valid VIN, a report has not yet been ordered, the 'Order Report' button will be clickable.

Ordering Reports

Ordering reports on RouteOne will not cost a dealer extra or induce 'double billing'. CARFAX is integrated with over 250 dealer service providers in the market, and a report that has been ordered from another platform will be made available for viewing on RouteOne, and not charged to the dealer. If the report has not been purchased, the option to order the report will be given.

When clicking on the 'Order Report' button from within the RouteOne system, a pop-up will be displayed.
