

ROUTEONE PRODUCT SUITE

RouteOne offers a robust suite of free and subscription-based products and services to assist your dealership with expediting the credit application management process, increasing profits, meeting regulatory requirements, and creating efficiencies within your dealership.

IDONE, THE IDENTITY VERIFICATION AND AUTHENTICATION TOOL POWERED BY TRANSUNION

- May be run independent of, or in conjunction with, your credit bureau reports
- Provides a complimentary OFAC check with each fraud score
- Enables audit trails and record keeping

ROUTEONE SECUREDOCONE AND 'SECUREDOCONE - PLUS', OUR ELECTRONIC DOCUMENT STORAGE TOOL, PROVIDED BY WORLDVIEW

- Provides automated and efficient electronic storage of documents originated in RouteOne, including the credit application, credit bureau reports, adverse action forms, and identity verification information
- Offers user permissions that provide YOU control over access
- Is the only tool that supports compliance for ALL your captive and non-captive business
- Allows eContracting-enabled dealerships the ability to automatically archive their electronic contracts, leases, and ancillary documents

RouteOne SecureDocOne-Plus:

- Allows for uploading and storage of .pdf documents originated outside of RouteOne

Ask about our 'bundled pricing' package and how you can receive three FREE months of SecureDocOne!

WEBAPPLYONE

WebApplyOne is a lead management and credit application tool that will incorporate your web site leads directly into the RouteOne platform and allow your customers to submit applications for credit - saving you time and allowing you a quicker, easier, and more efficient way to manage potential contracts.

VEHICLE VALUES

RouteOne's Vehicle Valuation tool eliminates the hassle of leafing through paper guides or going to stand-alone valuation sites. Automatically calculate used vehicle loan, retail, and trade-in values on a single screen from within the RouteOne credit application. Provide your finance sources detailed valuation information, reducing the time it takes to receive a funding decision. The tool currently offers valuations from The N.A.D.A. Official Used Car Guide® Company, Black Book, and Kelley Blue Book.

...AND A HOST OF OTHER VALUABLE COMPLIMENTARY TOOLS, INCLUDING:

- **eSign:** allows dealers to obtain electronic signatures from their customers, directly from within the RouteOne credit application
- **Credit Score Disclosure Notices/Risk-Based Pricing:** allows dealers to run the required Credit Score Disclosure Notice from directly within RouteOne
- **Adverse Action:** allows dealers to search for applications requiring an AA notice and automatically create a notice for those customers
- **Activity Alert:** notifies dealerships of potentially suspicious dealership activity within the RouteOne platform
- **Active Dealer User Report:** aids in dealership compliance and security by allowing you to monitor dealership RouteOne users and their activity history
- **Privacy/Security:** RouteOne allows you to assign employee permissions and control employee access to personal and confidential customer data
- **IP Blocking:** Access to RouteOne is only provided to dealership users from a dealership-approved IP address, helping prevent unauthorized access to data

For more information, contact your RouteOne Business Development Manager, or contact RouteOne Customer Support at 866.933.0663 or customersupport@routeone.com.

****No long-term contracts are required for any RouteOne product. Cancel at any time, with no penalties or fees.***
